MEMORANDUM FOR: Chief, Action Staff/DDS&T

SUBJECT: Evaluation of FTD Weekly Aerospace Systems Report

In response to your request of 12 November 1965 we submit the following answers to the FTD survey:

25X1A

Question A - Office of Special Projects

Question B - The FTD Weekly Aerospace Summary Report is used for background information by the systems engineers who are concerned with designing collection systems.

Question C - The FTD WASR is read by two system design engineers both of whom are considered middle management.

Question D - The parts most closely associated with the primary responsibility of OSP are the SPACE SYSTEMS, BALLISTIC SYSTEMS, AND UNIDENTIFIED FIRINGS. Of secondary interest are the AERODYNAMIC SYSTEMS and ELECTRONIC SYSTEMS.

Question E - In the areas of both primary and secondary interest sufficient detail is being provided in the FTD conclusions.

Question F - In consideration of all seven parts of the FTD WASR and also the importance of such information it is felt the longer form including available data, analysis, and conclusions would be more suitable.
